

CodeFiesta

Date : 17th October 2021

Time : 8:00 PM - 11:00 PM

CodeFiesta 2021 is a competitive programming contest in **Tantra Fiesta 2021** brought to you by IIITN's coding club - **DotSlash community**. The competition will be based on algorithmic and data structures skills and the problems would be spread over some of the most interesting concepts used for problem-solving.

Rules

- Refrain from discussing logic and strategy during the contest.
- Kindly do not share your code during the contest with your fellow competitors.
- Make sure other participants don't have access to your code. In case you are using any other online coding environment, you are responsible for the privacy of your code.
- All code submissions will run through a plagiarism test before being finally evaluated and the winner is declared. In case of any plagiarism, the contestant will be disqualified and the score will be held invalid for the contest.
- The PrepBytes team will decide the final winners after the contest and the final leaderboard will be displayed accordingly.

- Participants are ranked by score. If two or more participants achieve the same score, then the tie is broken by the total time taken to submit the last solution resulting in a higher score.
